

**Modular  
Solutions, Ltd.**

The Complete Modular Building Company

### **The Small Business Advantages of Purchasing a Modular Building**

Often times, profit and financial stability prove to be of extreme importance for a small business. Modular Solutions, Ltd can help you maintain financial stability by providing an affordable alternative to traditional construction with accelerated construction of a modular building.

Modular Solutions, Ltd can help if your needs are temporary with an inventory of buildings available for lease or purchase. Our staff is available to provide a tour of these buildings.

Our firm is a complete modular building company and can save your small business up to 60% on building costs which can help increase revenue.

Furthermore, Modular Solutions, Ltd has a track record as a viable partner to the small business owner whether it is to help design the initial concept plan for your modular building or to provide the best service in the industry after procurement of your modular building.

Time is money—Modular Solutions, Ltd can help save your small business time and money with the purchase of your new modular building or mobile office with most being ready to ship 45 to 60 days from approval. Options are available to help finance your modular building. Contact our sales department for a free no obligation consultation.
